

Access Adviser

Starting salary £23,300 • Leeds • Ref: IRC43249

Natural England works for people, places and nature, to enhance biodiversity, landscapes and wildlife in rural, urban, coastal and marine areas; promoting access, recreation and public well-being and contributing to the way natural resources are managed so that they can be enjoyed now and in the future.

Our aim is to increase opportunities for people to make nature, a natural part of their daily lives and as Access Adviser, it will be your aim too. Acting as a lead adviser for access you will have experience of technical issues such as the CROW (the Countryside and Rights of Way Act 2000), local access forums and balancing community needs for recreation and sensitive habitats. An influential communicator, you'll work with regional staff, user groups, farmers, land managers and local authorities. With an analytical mind, and natural problem solving ability, you'll undertake reviews on open access land and gather intelligence.

Your goal is a simple one. Increase the number and diversity of people enjoying our natural world. Achieving it will be less so. Put our words into action.
